Dr. Langley's Root and Herb

BITTERS.

A COMPOUND of Sarsaparilla, Yellow Dock, Prickly Ash, Dandelion, Thoroughwort, Wild Cherry, Mandrake, and Blue Flag. Just the Medicine for Ladies; sure to do them good.

SPRING HAS COME.

Read, consider, reflect! and know that after being shut up or confined in factories or workshops all winter the Liver becomes inactive and unhealthy, thus filling the blood with vitiated humors, producing Jaundice, Weakness, Loss of Appetite, Dyspepsia, Headache, Costiveness, Indigestion, Foul Stomach, Piles, Languor, and General Debility. Now then, if you wish to remove all these, together with humors in the Blood and Skin, take Dr. Langley's Root and Herb Bitters—at least one or two bottles. They always do good and never hurt. Let each and every man, woman and child have a bottle at only 25 cents for a pint, 37½ cents for a quart bottle.

Now Nature, herself, a sure remedy hunts,

Which cleanses the colorated bile in all savings,

From Gall to Nerves that lurk to the grave,

Langley's Root and Herb Bitters is a lively wave.

There's scarcely a dangerous disease we can name,

to which the Root and Herb Bitters have not achieved fame.

And so safe in their action, they cannot do harm,

While they strengthen the system and act like a charm.

Are you Tetrapacous colds—when this medicine is used

No doubt alcoholic is by it quickly cured,

Nor need the fair sex be fair amazons always,

To the tenderest infants it comes delicious.

Is your Liver a sorriest? Jaundice your foe?

Then Langley's Root and Herb Bitters is the blow

Do you suffer from Headache—twill give you relief,

For Pales'ness of all cures acknowledged the chief,

The motto of "try me and I'll do you good,"

The test of experience has only proved—

And many unto it this mind will appeal,

That the Root and Herb Bitters is every one a Friend.

Is your Appetite gone, then the Root Bitters take.

And you'll soon fully relish your chop or your steak,

The Blood it will purify—redden your cheek,

And strengthen your frame as solid as ever grow week,

The ladies declare no such Remedy's known;

And thousands as testimony in the Fair Sex alone!

No wonder, the Bitters make, hangers to fly;

Bangs now bloom to the top, now fit to the eye!

Sold in Bangor, wholesale and retail, by Ingraham & Fuller, Guild & Harlow, and by all Druggists and dealers in Medicine in Bangor, Orono, Oldtown, Stillwater, Hampden, Frankfort, and Hucksport, at 25 cents a pint and 37½ cents for a quart bottle.

ON the written application of John Sargent Jr., Franklin Whittier, et als, citizens of said building in said Bangor, for a main drain or common sewer, to be made in said city, commencing on Essex street, near the head of Cumberland street, and extending down said Cumberland street to such point as the Mayor and Aldermen may deem necessary, as in said application is set forth;

Ordered—That the Mayor and Aldermen repair to the place designated in said application, to examine the same and determine the necessity of said drain, on THURSDAY, the fifteenth day of June instant, at 7 o'clock P. M.

Ordered—That in case the Mayor and Aldermen, or a majority of the same, who may be present at said meeting, shall judge it expedient that such drain or sewer be made, they will, at the time and place of said meeting, determine a sum and allow such sum for damages (if any are claimed and in their opinion should be allowed,) as any claimant may be entitled to, deducting the benefit he may receive; and said Mayor and Aldermen shall also at the time and place aforesaid, estimate and decide what person or persons, if any, are benefitted, and liable to be assessed for a proportional part of the charge of making, maintaining, and repairing such drain or sewer, and the amount of such benefit.

Ordered—That notice to all persons, through or over whose land said drain or sewer is to be placed, be given by publishing an attested copy of said application, and of this and the foregoing orders thereon, one week in the Bangor Daily Whig and Courier, a newspaper printed in said city—the first publication to be seven days at least before the time of said meeting.

Whig State Convention.

The Whigs of the several cities, towns, and organized plantations in the State of Maine, are requested to send delegates to meet in Convention at PORTLAND, on THURSDAY, the 29th of June next, at 10 o'clock A. M. for the purpose of nominating a Candidate for Governor, and the transaction of such other business as may be presented.

The basis of representation will be as follows, viz.—Every city, town, and organized plantation will be entitled to one delegate; every city, town and organized plantation, having 1000 inhabitants will respectively be entitled to two delegates; those having fifteen hundred inhabitants, to three delegates, those having two thousand inhabitants to four delegates; those having twenty-five hundred inhabitants, to five delegates; and those having more than twenty-five hundred inhabitants, to additional delegates for every additional two thousand inhabitants—the census of 1850 to be taken as the basis of representation.

By order of the Whig State Committee.

May 22, 1854

A Pinafore.

The Albany Evening Journal, one of the ablest, most prominent, and most reliable Whig papers in the Union, publishes the resolutions recently adopted by the "Free Democracy" of Massachusetts, and comments upon them as follows. We believe, with the Journal, that the doctrines set forth will be for the most part subscribed to by more than nine tenths of the Whig party of the North.

Resolved, That no more of the Kansas and Nebraska acts as abrogates the Missouri Compromise must be repealed.

Resolved, That slavery in the District of Columbia must be abolished.

Resolved, That slavery must be prohibited in all the Territories of the United States, both in those to be acquired, and in those already established.

Resolved, That all new States must be free States.

Resolved, That Cuba, if it comes into the Union, must come in free.

Resolved, That the independence of Hayti must be acknowledged.

Resolved, That the rights of our colored citizens, going to other States, must be protected.

Resolved, That every man has a right to himself, and therefore no man can own another man.

Resolved, That the Fugitive Slave Bill is destitute of every attribute of justice or humanity, at war with the spirit of Liberty, with the principles of Law, with the purposes of the Constitution, with the best feelings of mankind, and ought, therefore to be at once and forever repealed.

Resolved, That Massachusetts has the constitutional right, and that it is her imperative duty to enact laws which shall protect the personal freedom of all her citizens, and secure the right to trial by jury under all circumstances involving the question of human liberty.

As "agitation" has been legalized by the Repeal of the Missouri Compromise, it is no longer "treason" to "agitate." Or, if be, there are more "agitators" and "traitors" north of Mason & Dixon's line just now, ten to one than ever before. Indeed, it would be a difficult matter, at the present writing, to find a man (not paid for his opinions) who is not an "agitator." And passing events render it quite probable that "agitation" is to be the order of the day until Slavery shall find its tomb.

However a platform like that just adopted by the Free Democracy of Massachusetts, might have struck the Northern mind six months since, now there are very few who will discover anything very offensive or very obnoxious in it.

1. The "Abrogation of the Missouri Compromise must be repealed." This is the pervading and very nearly unanimous sentiment of the North. The exception is too insignificant to be made a note of.

2. "Slavery in the District of Columbia must be abolished." Since slavery has commenced a fight, to this we say "Amen." The principle of "squatter sovereignty" should be applied in that territory as well as in Nebraska.

3. "Prohibition of slavery in all the territories," present and prospective. That will be responded to by the whole North. Not a foot of ground over which Congress has "exclusive jurisdiction" should be contaminated, for a moment, by the unhallowed touch of Slavery.

4. "All new States must be free States."—Agreed.

5 and 6. What is said about Cuba and Hayti is all well enough. There is no good reason why the independence of Hayti should not be recognized; but we could as soon have Cuba where she is, as where she probably will be, even though she should come to us free. But if she is to come, the North should say, and at once, that she has the power to enforce its wishes in Congress, "she must come in without the stench of Slavery upon her garments."

7. "The rights of our colored citizens going to other States must be protected." That is right, and but for the pusillanimity of the North, this piece of common justice would have been long since conceded.

8. "Every man has a right to himself, and therefore no man can own another man." Unfortunately it is the decision of the Courts, that what is property which the law recognizes as property. Hence while it is unquestionably true, under the higher law, that "every man has a right to himself," it is unfortunately true, that, under our Constitution and laws "some man does own a other man." The law involves metaphysics and so long as there are so many practical questions unsettled, it will probably be as well to do what may legally and constitutionally be done before wasting much time on mere abstract propositions.

9. "Repeal the Fugitive Slave Law." Of course repeal it; or if the Constitution renders some law imperative let the claimed fugitive have a TRIAL BY JURY. In this Boston case, if Burns had been simply on trial for murder, he would have been acquitted, under the testimony. But having been arraigned for the higher offence of having run away, with himself, he was condemned.

"In this, or else," or any other time, we could most heartily subscribe to this Platform, with a very slight dissent rather from its shadow than its substance. Anything that is lawful to secure an effectual union of true men against the foul conspiracy of Slaveholders and Doughfaces!"

MURDEROUS ASSAULT. On Sunday evening last, about nine o'clock, Mr. Cousins Farmerter of China, while crossing Penobscot bridge and near the eastern end, was suddenly assaulted by four men, who first received a severe blow upon the head whereupon he gave a shriek, which he was carrying, to a young man with him, and attempted to defend himself with a hatchet; but as he drew it back to strike, it was seized and taken away by one of his assailants behind. They then knocked him down and bruised his face and head severely. The young man fled for help, and upon returning with assistance, the scoundrels took to their heels.

Deputy Sheriff Higgins of Brewer, succeeded in catching and arresting two of them—Michael Toole and Peter Green—and lodged them in jail yesterday.

Mr. Farmerter has been at work up river, and was lately paid off. He thinks one of the men was present in the office when he received his money.

INDIANA. There appears to be a fair issue made up in this State between the regular Pierce Democracy on the one side, and the balance of the people on the other. The former defend the extension of slavery and go for perfect freedom in the liquor traffic—the latter stand up for the rights of freedom, and advocate prohibition of the sale of intoxicating drinks. The majority for the self-styled Democratic party, has for some years past been overwhelming in Indiana—but it is evident that a new day has dawned. The corruption and recklessness of the administration have alienated a large portion of the honest voters, and it is very probable that the new combinations to which the people have been driven will effect the complete overthrow of the party here to who have lately ridden the state. The emissaries of the administration led on by Senator Jesse D. Bright, having obtained control of the Democratic State Convention held on the 24th ult., applied the party screws, and forced through an endorsement of the Nebraska iniquity. But this has proved the last turn of the screw. The honest and unbought freemen of the party could stand it no longer. Large numbers of them have deliberately abandoned the party to its fate and are ready to unite with the Whigs and all other friends of freedom, in an uncompromising warfare upon the Northern dough-faces and the administration they support.

The elm tree near the post office that gives the name to the building in front of which it stands, has been deprived of its glory—its leaves and branches—and looks as bare and ungainly as a newly-shorn sheep. The tree was in a dying condition, and to save its life its branches have been lopped off and the bark scraped. May it again stretch out its arms, and—"long may it wave."

Our Secretary of the Home Department is willing to endorse the good qualities of the "Cream Soap" advertised in this paper. There are several varieties of this soap—for the laundry, the toilet, and for shaving. In the washing of clothes, it is decidedly a labor-saving institution. Any one who wishes to try it, can procure the article at G. F. Sargent & Co's Drug Store.

Mrs. Bosley, wife of Andrew Noble, late of Alfred, committed suicide on the 2d inst., by cutting her throat. A correspondent of the Saco Union says she has long labored under constitutional mental aberration. She had but just returned from Brooks, Bangor and Bucksport, where she had been to visit her children, assuring them it was her last.

THE BLACK WARRIOR AFFAIR. The Herald's correspondent says that the English government has induced Spain to pay the damages to owners in the Black Warrior affair—and that she has accordingly asked our government for an estimate of them.

The new Millinery and Trimming store of Messrs. Henrics & Co., at No. 4 Union Block, Main street, is an attractive establishment for ladies, and one of rather an unique character in this region.

Mr. Cassie Avery of Hallowell, an aged man, formerly a deaf, was so badly injured by a railroad train, while he was walking on the track between Hallowell and Augusta, last week, that he is not expected to recover.

We are requested to say the Mr. W. Berry will supply tickets at half price, on board the Daniel Webster, to all who may wish to attend the "Liberal Mass Convention."

BANGOR LIGHT INFANTRY. The notice of meeting for drill and parade, has been changed to Friday next, instead of Saturday—the former being the most convenient day for members. See advertisement.

The Free Democratic State Convention at Lewiston, on the 5th of July, will be addressed by Hon. John P. Hale.

The Boston Post says James Gordon Bennett is going to take a *spoint* at Europe. That is italically personal.

THE PRESIDENT'S MESSAGE ON SPANISH RELATIONS. The Washington correspondent of the Courier and Enquirer, has the following in regard to the much-talked-of forthcoming message of the President:

"The President's supplemental Message on our Spanish relations will, probably, be sent to the House on Monday next. It will demand an appropriation of fifty thousand dollars to defray the expenses of a Commission to Madrid to help Mr. Soule to acquire Cuba. That will be the real object of their mission. The settlement of the Black Warrior affair as I have frequently said, is of little consequence. It was never more than a trifling incident of the general quarrel which the administration has raked with Spain. The following cases remain, for which full redress and apology have been demanded and are still demanded:

Seizing and detention of the Crescent City, in 1852.

Seizure and detention of the steamer Ohio in 1853.

Outrage on the schooner Manchester.

Cornelius's case *passim et usque*.

Steamer Falcon fired into by the Pizarro.

Schooner Lamar be seized.

Brig Jasper seized and detained.

The Contoy prisoners.

Execution, without trial by jury or counsel of the Lopez prisoners.

Case of imprisonment and maltreatment of a number of American citizens at various times."

The proposition for Commissioners, is a piece of clap-trap and humbuggery, and I hope the Whigs will have nothing to do with it, and will vote against it on every pleas in which it may be presented. It is part of an infamous system of slavery agitation, of which the Nebraska bill was the first step, and the dissolution of the Union is intended to be the last."

MATRIMONIAL.—Mrs Anna Cora Mowatt, the distinguished actress, was married to Wm. F. Ritchie, Esq., at Ravenswood, L. I. on Wednesday 7th inst. Quite a distinguished company were present. The following is given as a description of the bride's dress:—

"The bride's dress was of white silk, beautifully embroidered, its sapphire being also let in; the veil of Honiton, fastened by a wreath of white rose buds and myrtle leaves, and looped up at the side, a pearl necklace, presented by the groom, graced her neck, and the bertha of Brussels points was confined at the bosom by a pearl brooch."

The marriage ceremony was performed by the Rev. Mr. Wilkes, Swedenborgian, in which faith the bride is a devotee.

Adjourned to Monday next, at 2 P. M.

COST OF THE FUGITIVE SLAVE LAW. Some of our Southern exchanges complain of the expense of recapturing fugitive slaves, taking the case of Burns as a specimen. Thirty or forty thousand dollars, it is estimated, must be taken out of the Federal treasury, to pay for the Federal military power by which the law was enforced; and the portion of this which the Slaveholding States will be required to contribute, will be far greater than the value of the slave.

We presume this calculation is correct. But we do not see how the Slaveholding States can, with any show of justice, complain of this state of things. The existing law is one of their own seeking. They were told by Free State Representatives, that the recapture of Fugitive Slaves was not the business of the Federal Government; that the Constitution did not require this service at the hands of the Federal power; that it was simply prohibitory, forbidding the *discharge* of such fugitives from service, "in consequence of any law or regulation" in the State to which they might escape; and that the very utmost, if it did impose on anybody, except the judicial tribunals, the duty of delivering them up, it could only be *on the State* as such. Mr. Webster held this view and distinctly declared that according to *his* understanding of the Constitution, it enjoined the duty of making laws for their surrender upon the State Governments, and not upon Congress. But the Slaveholding Representatives would not listen, for a moment, to such representations. They even threw overboard their cherished theory of State Rights; maintained that Congress *might* interfere with Slavery; and insisted that the Federal Government should undertake, through its own officers at its own expense, the recapture of every slave who might run away. Instead of framing a law in conformity with the sentiments of a civilized society—resting on the principles of common law for its sanction—recognizing and respecting the usual safeguards which every Free State throws around the lives and liberties of its inhabitants, they insisted on simply giving legality to kidnapping. They declared their determination to have the law in just the shape they had given it, and to make the Federal Government enforce it by its own agencies and at its own cost.—They succeeded in their endeavors; and they have no right now, therefore, to complain of the result.—[New York Times.

Varieties.

Trajan's Wall originally built by the Emperor Trajan, to defend the Roman province of Moesia, from barbarian incursions, is from 35 to 40 English miles in length, from the Danube to the Black Sea. It is about 8 or 10 English feet high, and the Turks have now cleared the fosse in front of it, whilst the western portion is still further and independently strengthened by a line of deep lakes. About 1000 or 2000 feet (for the distance varies) to the south of the rampart we have just described, runs another rampart of a similar character and strength, called the South Wall.

The Countess of Beauregard, (better known as Miss Howard, from her *liaison* with the present Emperor of France,) was married last month, at St. James's Church, Piccadilly, to Clarence Trelawney, Esq., an Englishman late in the Austrian service.

Opening of Japan. Advices from Hong Kong, of the 12th of March, received by the English steamer Bombay at Trieste on Tuesday, May 23d, say:

"The Americans have established friendly relations with the Japanese. Japan is to be opened in one year's time. Three ports are being selected." This corresponds with the report of the concession to the Russian Admiral.

The Steamer St. Lawrence has been overhauled, repainted, and had its name changed to Lilly Dale. She has been sold to a company in Boston.

The Hartford Courant learns from good authority that the early strawberries—the large Early Scarlet Seedlings and the Boston Pine—have been blasted by the rains of May. The Hovey's Seedlings, which are later, promise a good crop. The cherries are badly blasted, likewise.

Henry Ward Beecher says that the last quarter of an hour of a long drawn and tiresome sermon gives a reprehensiveness to religious truth, strength than can be dissipated by two good sermons afterwards.

"According to the last report of the Paris fashions, bonnets are likely to return to their legitimate uses. They will hereafter be worn on the head, not hung on the back of the neck.

"Tommy, now's all your folks?" All well but Growler, he got the *bone-worm-el* complaint.

Houses of gutta percha are now manufactured—good for boarding houses.

A college student being examined in Locke, where he speaks of our relations to the Deity, was asked "What relation do we most neglect?" He answered with much *naiveté*, "A poor relation, sir."

New Hampshire Politicians.

To the Editor of the Whig and Courier:

There is one notable feature in the government of the State of New Hampshire, of which I am reminded by your statement in the Whig of this morning, in reference to the age of the present Speaker of the House of Representatives, Mr. Chase, and that is, the early age at which men have obtained a controlling influence in the political affairs of the State for the last twenty-five years. In most legislative bodies—not only in this country but in all countries—the first position is reserved to men of experience and matured age. But a contrary practice prevails in the Granite State.

Gen James Wilson—now and always a whig since the party had a name, was elected Speaker of the House when he was about twenty-five years of age. He represented the town of Keene, and is now in California. General Franklin Pierce was elected a member of the House from his native town of Hillsborough, when he was only twenty-two or twenty-three, and the next year returned and chosen Speaker. The late Charles G. Atherton was elected to the House several years in succession from old Dunstable, now the city of Nashua, and the second or third year elected to the office. Then Ira A. Eastman of Gilmanton, Harry Hibbard of Bath, Samuel H Ayer of Hillsborough, who died suddenly at his residence in Manchester, a few days previous to Mr. Atherton, last winter, were all between twenty-five and thirty when they occupied the Speaker's Chair. Moses Norris Jr. of Pittsfield, John S. Wells of Lancaster, now of Exeter, Samuel Swasey of Haverhill, and N. B. Baker of Concord (the present Governor, now about thirty-seven years of age,) were over thirty when they filled the office of Speaker, and the present incumbent, F. R. Chase of Conway, is not far from thirty-five. G. W. Kittredge of Newmarket, now in Congress, was about forty. I do not now recollect more than two persons who have held that position who were upwards of forty, within the time mentioned above, namely John P. Hale of Dover, and Moses Norris, Jr., then of Pittsfield, now of Manchester, who was elected a second time after the lapse of several years. I do not know the age of J. Everett Sargent of Wentworth, who was the Speaker last year, and now is President of the Senate, but presume that he is a young man.

Most of the gentlemen above named have been repeatedly elected to Congress, and all the others have held offices of honor and profit.—Several of them have been State Senators and presided over the deliberations of their eleven associates.

It seems to be conceded that the Speakership of the House is a stepping stone, which one has only to attain to make sure of future promotion.

SATURDAY, June 10.

TO PROTECT YOUNG VINES FROM BUGS. The stopping of depredations of bugs, by the application of soot, ashes, or any thing of kind, is in my opinion a humbug. I have tried all such applications on my cucumbers, melons and squashes, without success.

The only way to preserve vines, is to place over each hill a box, say sixteen or eighteen inches square and four inches high, and cover it with oiled gauze or glass. This is a sure method and costs but a very little. I plant my vines on very high gravelly land, put about a quart of pulverized hen manure, covered two inches with fine earth, in each hill, water them occasionally with a mixture of one quart hen manure to two gallons of water, *taking care not to let it touch the plants or roots*, always am repaid by a good yield.

THE FISHERIES. Intelligence from New Brunswick represents that the question of commercial reciprocity has excited a great sensation there. The nomination of candidates for the Legislature has brought out the party leaders on this important subject, and it would seem that the proposed treaty providing partial reciprocity between the United States and the Provinces is regarded with disfavor. Armed vessels have been dispatched from Halifax for the protection of the fisheries. Breadstuffs are to be admitted free of duty into Prince Edwards Island until October next.

The latest news, by mail and telegraph will be found on third page.

A SCENE FROM REAL LIFE—WOMAN'S LOVE. We saw last evening an apt illustration of the affection of woman. A poor inebriated wretch had been taken to the calabooose. His conduct in the street and also after he was placed in the cell, was of such a violent character that it became necessary to handcuff him. The demon rum had possession of his soul and he gave vent to his ravings in curses so profane as to shock the senses of the fellow-prisoners, one of whom, in the same cell, at his solicitation, was placed in a separate apartment. A woman appeared at the grating, and in her hands she had a rude tray, upon which were placed some slices of bread fresh from the hearth-stone, and delicacies for her erring husband. She stood as the bar, gazing intently into the thick gloom where her maddened companion wildly raved. Her voice was low and soft, and as she called his name, its utterance was as plaintive as the melody of a fond and crushed spirit.

The tears streamed from her eyes, and there in the dark prison house, the abode of the most wretched and depraved, the tones of her voice found their way into that wretched man's heart, and he knelt in sorrow and in silence before his young and injured wife, while his heart found relief in tears such only as a man can weep. Though the iron still bound his wrists, he placed his hand with heavy insignia of degradation, confidently and affectionately upon the brow of his fair companion, and exclaimed, "Katy I will be a better man." There upon a rude seat she had spread the humble meal which she had prepared with her own hands, and after he had finished she rose to depart, bidding him to be calm and resigned for her sake, with the assurance that she would bring him a friend to go on his bond, and that she would return and take him home. And she left him, a strong man, with his head drooping upon his breast, a very coward humiliated before the weak and tender being whose presence and affection had stilled the angry passions of his soul. True to the instincts of her love and promise, she did return with one who went on his bonds for his appearance next morning, and with his hand clasped in that of his lovely wife, she led him away a penitent, and we trust, a better man. There were those who laughed, as that pale, meek woman bore off her erring husband, but she heeded them not; her self sacrificing heart knew or cared for nothing in its holy and heavenly instincts, but to preserve and protect him whom she loved with with all the devotion of a wife and a woman.

ATTEMPT TO EXPEL THE EDITOR OF THE "UNION" FROM THE HOUSE. The public are well informed of the violent language used towards certain Northern members of Congress, by the organs of the Administration, during the last fortnight. It cannot be denied that if personal violence had been committed upon those members, it would have been attributed directly to the unmanly and malignant counsels of the *Union* and *Star*. The subject has been brought before Congress, and the action of such counsels placed where it properly belongs, by a resolution offered on Thursday, by Mr. Giddings, to expel the editor of the *Union* from the House, for printing in his paper an article declaring that he, Mr. Giddings, and others were without the pale of the law, and have no claim to protection.

The resolution was debated for a long time, but when the question was taken, no quorum could be found to vote. 79 voted in favor, to 31 against.

THE LONG ISLAND MURDER CASE. A correspondent of the New York Times states that at the examination of Nicholas Beechan the supposed murderer of Mr. and Mrs Wickham, the prisoner (who it will be remembered had previously acknowledged guilt) strenuously maintained his innocence, and that all the statements which he had previously made, and even that he had made any confession to Jacocks, Ellen Holland, the servant girl was worn, and gave a very plain and straightforward account of all the circumstances. She was occasionally interrupted by Beechan, who fiercely laughed aloud and at times cross-questioned her.

A CARD.

Mrs. Mallet would tender her sincere thanks to her friends and the public for the generous Concert given on Friday evening, and would say that the "rare and rich present" is not more valued than the kindness and sympathy bestowed upon a grateful heart. To the Band, Amateurs, and Professors, and especially her personal friends associated in the musical art, who have marred themselves in her behalf, she would acknowledge her obligations, and assure them that the labor of love and kindness can never be forgotten by the recipient.

Holloway's Pills, a most effectual remedy for Bilious Complaints and indigestion incident to the service, who traded many years between the Bahamas and Florida, suffered for a severe bilious attack and indigestion bordering on melancholy, exhausting the pile of his stomach, also an unnatural craving after intoxicating food. He paid an immense sum of money for medical advice, without obtaining any benefit; however, at last, he was cured in less than six weeks, by taking Holloway's Pills, and for the last two years he has not felt the least symptom of bile, indigestion or disordered liver.

The decease has taken from a circle of love one of its choicest links—from a garden of promise one of its most beautiful flowers—from a domestic circle one of its brightest ornaments—from a community one loved and respected by all who knew her acquaintance. Uniformly affectionate as a daughter and a wife, she has left indeed an aching void, the pangs of which are only to be effaced by the sweet satisfaction that such was her christian resignation, faith and hope, to survivors can doubt but she "fell asleep in Jesus," at home with Christ in Paradise. By the delightful recollections of a loving, virtuous daughter, wife, mother and friend, she will always live while memory holds her sway.

NOTICE.

G. W. T. BARCK,

LATE of Boston, would inform the citizens of Bangor and vicinity, that he has just opened an Apothecary Store, (formerly occupied by the late Dr. Holden,)

No. 22 West Market Square.

He will not, as is too often the case among Apothecaries, have connected with his business the selling of paints, dye stuffs, groceries, &c., but he intends to keep a Medicine Store, and nothing else. He flatters himself that, having been educated in the schools of Europe as a Chemist and Apothecary, and having had much practical experience in the business in which he is now engaged, that he is capable of compounding and putting up medicines in the most scientific manner—therefore he would say to all wishing to purchase Medicines of the best quality, to call at Mr. Barck's store, No. 22 West Market Square, Bangor, and they can get just the article desired.

Physicians prescriptions will be happily received and carefully attended to at this store.

Important Bargains Offered.

LOTS of Land for Rural Dwelling Houses, with large Fruit and Vegetable Gardens, adjoining the city, mostly on the continuation of French St. and Broadway, and a street laid out 75 feet wide, in the range with Broadway, (as it runs from State Street to the Park.) This street is laid out about 150 rods through my lands, extending over the west end of Mt. Pleasant. This land is north of and much higher than the Park, having a commanding view of the city and surrounding country.

Also, land for Orcharding and Farming, on the new Stage Road to Oldtown running by Coopers' Mills, situate beyond and near the first considerable elevation, having a view of some part of the city on its western side. This land is considered as good as the farm on which I live, where I have raised over 40 bushels of wheat to the acre, (as may be seen on the books of the F. A. Society,) and oats, hay and potatoes in that proportion. Some judgment may be formed also of my land for Fruit Trees on my lot near the city, by examining my bearing trees and our Fruit Nurseries.

My land East of the Mills has a considerable growth of wood on it, and some timber for frames. We can go three times a day, it being one of the easiest roads running out of Bangor.

Liberal terms will be given in it, and the size of the lots made to suit purchasers.

The original price has been reduced to $1.50 per bottle, (contains nearly three half pints) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is put up in red bottles, labelled lengthwise, and on the following letters blown on the glass:

"SWAIM'S—PANACEA—PHILADA."

and has on the wrapper James Swaim stamped on the setting wax, and written on the label covering the cork; and a splendid engraving for the side of the bottle, composed of a panoramic table work, comprising nine different views, which have been turned for the exclusive use of the proprietor, by Draper & Co, bank note engravers, of Philadelphia. In the centre is a portrait of the late Wm. Swaim, copying it record.

KENNEDY'S
The Greatest of the Age!
MR. KENNEDY, of Roxbury, has discovered in one of our common vegetables a remedy for all the diseases *EVERY KIND OF HUMOR*, from the worst Scrofula down to a common Pimple. He has tried it in over one hundred cases, and in every case failed except in two. He has now in his possession over two hundred testimonials of its value all within twenty miles of Boston.
Two Bottles are warranted to cure the most humorous mouth.
One to three bottles will cure the worst kind of pimples on the face.
Two to three bottles will cure the worst case of blotches on the neck and stomach.
Three to five bottles are warranted to cure the worst cases of erysipelas.
One to two bottles are warranted to cure all humors in the eyes.
Two bottles are warranted to cure running in the ears and blotches on the hair.
Four to six bottles are warranted to cure corrupt and running ulcers.
One bottle will cure scaly eruptions of the skin.
Two to three bottles are warranted to cure the worst cases of ring worm.
Two to three bottles are warranted to cure the most inveterate cases of rheumatism.
Three to six bottles are warranted to cure salt rheum.
Five to eight bottles will cure the very worst cases of Scrofula.
A benefit is always experienced from the first bottle, and a perfect cure warranted when the above quantity is taken.
Nothing looks so improbable to those who have not read all the wonderful medicines of the day, as that a common weed, growing upon the pastures and along side some walls, should cure every humor in the system, yet it is now a fixed fact.—If you have a humor, it has to start. There are no humors talk about it, suffering some cases but not years. It has peddled over a thousand bottles of it in the vicinity of Boston, and knows the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts. It has given to children and old people of sixty and twenty years, healthy looking children, whose flesh was soft and healthy, restored to a perfect state of health by one bottle.
To those who are subject to a sick headache, one bottle will always cure. It gives great relief in catarrh and dizziness. Some who have taken it have been positive for years, and have been regulated by it. Its health to sick people works quite equal to any other medicine. Its arrangement of the functions of nature, it will cause a regular feeling but you must not be alarmed—they always disappear in from four days to a week. There is never a bad result from it—on the contrary, when that feeling is gone, you will feel yourself like a new person. I hear some of the most extraordinary encomiums of it that I for man listened to.
No change of diet ever necessary. Eat the best you can get, and enough of it.
ROXBURY, Sept. 11, 1853.

THIS valuable medicine which has received the sanction of the medical faculty by whom it is regularly prescribed, and which has been tested successfully by thousands of invalids, is one of the most remarkable preparations ever offered to the public for the cure of
CONSUMPTION, SCROFULA, COUGHS, COLDS, ASTHMA, BRONCHITIS, SPITTING OF BLOOD, AND ALL COMPLAINTS OF THE LUNGS.
Pure Cod Liver Oil has long been acknowledged to be the most efficacious article for the cure of Consumption and kindred diseases yet discovered, while the chemical properties of the PHOSPHATE OF LIME are also well known in medicine to be by prescription healing. In cases where alteration has taken place in the lungs, this article has been found by the most careful tests to supply the very ingredients necessary for the formation of cells, and the complete healing of the diseased part of the human system.
The preparation of the pure Cod Liver Oil and Lime retains the oil of its very nauseating taste which renders it so repulsive particularly to invalids,—the thorough incorporation of the Phosphate of Lime with the Oil has only been accomplished by the adoption of the most perfect rules of chemistry and a medicine has thereby been produced which is of inestimable value as a climate like our own.
A long array of certificates might be given here to prove the efficacious character of this medicine, but it is not deemed necessary. The fact that from the extraordinary combination of the Cod Liver Oil and Lime had only to be made public, it has been gratefully adopted by the medical faculty, as sufficient proof of its unquestioned excellence.

TESTIMONIALS.
The following testimonial from Dr. John C. Warren to Boston was given 17 years since, but will answer.
BOSTON, Jan. 5, 1853.
Having had occasion to observe that a few persons of fitted with Trusses have suffered much from the want of a skillful workman in the manufacturing, I express my opinion of their owner, Mr. James Foster, to satisfy myself of the competency of Mr. J. F. Foster in supply the deficiency occasioned by the death of Mr. Beach.—After a trial of the various of his work, I am well satisfied that Mr. Foster is well acquainted with the mechanical principles and arrangement of Trusses according to the variety of cases which occur. I feel called upon to can find him to my professional brethren and the public as a person well fitted to supply their wants in regard to Trusses.
JOHN C. WARREN, M. D.
The undersigned take great pleasure in recommending to the inventive consideration of the public, as a skillful and ingenious person in the manufacture and fitting of Trusses. We have employed him (some of us every two or three years) and have received much benefit from his skill in adjusting Trusses to the peculiarities of our cases, and a large number of instances which he has selected in a variety of cases, render him, in our opinion, equal if not superior to any manufacturer of the art.—He refers Dr. Gilman Foster of Charlestown, as one of the Trusses in the United States, for a period of two to four years during which he has had the opportunity of seeing the results of the operations of Mr. Foster upon himself of the opportunity of seeing the results of the operations of Mr. Foster upon a great variety of cases, with great success, some of which were of a very important and difficult character.
It is well known to all who have occasion to wear a Truss, that a great excellence consists in its adaptation to the body, and thus its success in retaining the part to be operated upon, and in such a manner as to facilitate and eventually radical cure the complaint.
Our experience has convinced us that Mr. Foster has thoroughly studied this knowledge. The certificates of Dr. J. C. Warren and other eminent surgeons which he has shown us are fully sustain the opinion we have expressed.

DR. ORDWAY'S HUMOR DISCOVERY,
—AND—
BLOOD PURIFIER.
DR. ORDWAY has been using his Blood Purifier in his practice for the last seven years, with great success. He has often been urged by his friends, and those who have tried it and know its efficacy, to put it within the reach of all.
He has now added to it an *Herb discovered in California*, by Dr. KELLEY, which makes it the most wonderful remedy for
HUMORS OF ALL KINDS,
LIVER COMPLAINTS, CHRONIC DISEASES &c.
The virtues of this Herb were first made known to Dr. Kelley by an Indian, while attending a patient sick with that terrible disease, the California Erysipelas and Liver Complaint.
The effect was miraculous, curing the man in a few days.
The natives, when bitten by a rattlesnake, or rabid animal, resort to this herb for a cure.
Hundreds are taking this medicine, after trying in vain other remedies, and say the half was never told them.
Discovery of the California Herb.
About the first of March, in the year 1849, Dr. Kelley sailed from Boston in the ship "Sweden" for California, and arrived at San Francisco in July following. He spent considerable time in travelling the country and mining, but the greater portion of which was spent in the practice of his profession.
While he was practising in the vicinity of Auburn, between the north and south forks of the American river he frequently noticed the Indians gathering an Herb which they held in high estimation in curing diseases, bites of rattlesnakes, and rabid animals.
While doctoring a minor for that terrible disease, the California Erysipelas and Liver Complaint, an Indian (whose life he had previously saved) while on a quest with some medicine, came with an Herb which he called "*Tuba-quacheche*," (which means white root) he told him to give the "*medicine*," (man.) The effect he found to be new and wonderful, curing the man in a few days.
He afterwards used the Herb in his practice, and found it to possess new and valuable properties for all kinds of Humors, Liver Complaints, Dyspepsia, Rheumatism, Scrofula, Running Ulcers, Mercurial Diseases, Sore Heads, Sore Legs, Cutaneous Eruptions, Scald Heads, Ringworm, Tetter, Salt Rheum, Blotches, Boils, Tumors, Chilblains, Chapped Hands, Corns, Ulcerated and Stiff Joints, Scalds, Burns, Sore throat, Skin diseases, Sore breasts, Sore heads, Ulcers, Wounds.

HOLLOWAY'S OINTMENT!!!
Citizens of the Union.
You have done me the honor, on my own request, from one end of the Union to the other, to stamp the character of my Ointment with your approbation. It is scarcely two years since I made it known among you, and already, it has obtained a celebrity high on my side. Medicine must or it a period.

ASTONISHING CURE OF SORE LEGS AFTER NINE YEARS STANDING.
Copy of a Letter from Mr. W. J. Langley of Hillsville, Yadkin county, North Carolina, dated November 1st, 1853.
READ HIS OWN WORDS.
To Professor Holloway.
Sir—It is not my wish to become notorious, neither is this letter written for notoriety, but it is to say, that your Ointment proved one of the most beneficial outward remedies I have ever used, and which was to be depended upon. I will say that I knew one to be entirely beyond the reach of medicine. For nine years was afflicted with one of the most painful and troublesome sores, so that ever fell to the lot of man, and after trying every medicine that I heard of I was almost in despair of being cured, but a friend in a letter recommended your Ointment, which I commenced using, and in a few days was on my way to recovery, and entirely relieved in a few weeks, to my agreeable surprise and delight, and to the astonishment of my friends.
W. J. LANGLEY.
AN EXTRAORDINARY USE OF A PHYSICIAN WHEN NEARLY AT THE POINT OF DEATH.
Copy of a Letter from Mr. R. Durant, New Orleans, Louisiana, 1851.
To Professor Holloway, Sir—Your Ointment and Pills have saved my life, which has been saved. For seven years I had a bad breast with ten running wounds, (one of a cancerous nature.) I was told that nothing could save me, but I was induced to try your Ointment and Pills, which I did, and in a few days I was able to walk out. In a few weeks I was able to walk out. We had tried every medical man in New Orleans, and I was given up at New Orleans. Send my pills from Hotel des Princes, Paris, although I had despaired at New Orleans. Send pills well, and I will remit you the money.
R. DURANT.

For the rapid cure of
COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.
WE invite the attention of the public to the Certificates appended below, and to speak for them that candid consideration, which their honest truthness deserves.
Men in such stations as those who voluntarily bear witness to the efficacy and value of Cherry Pectoral, do not wantonly trifle with or distort facts, nor prostitute their correct fame. Judge then whether there is not the medicine to trust which you must have relief for the throat or lungs. Judge too, whether every family ought not to have it by them as a safeguard against the every where prevailing enemy, which steals upon a third frequently upon almost every flock and cries off the lamb from many a home?
Jackson C. H., Jackson Co., O., 20th Nov., 1850.
DR. J. C. AYER—Sir: The CHERRY PECTORAL is much used here. Several of our best Physicians have used it. Some of them in their own case, and always with the happy effects. Their numerous patients and friends have had it administered to them, and I merely in regard to every new remedy and it only after undoubted evidence of its use in any article, that has thus gained a general confidence to be extensively used.
The unanimous testimony of the combination of ingredients in the Cherry Pectoral proved beyond cavil or regret of all under their own observation has compelled a natural one to proclaim abroad its unbiased use. It is beyond all doubt the most gradual remedy for the relief of the numerous affections of the chest in the same time relative and expectorant—a rare combination of properties.
In the hope that it will prove a town reward I subscribe myself, Respectfully yours &c. per avoirdupois.
JAS. T. C. MITCHELL, M. D.
Allegan Mich., 14th Jan'y 1854.
Dear Sir—No one, no not one—man, woman, or child—can be found to deny that the Cherry Pectoral is all that it claims to be. There is much needed relief in this city although not known until recently. The Cherry Pectoral should know its virtues. Yours truly,
JOHN R. KELLOGG, M. D.
What yet remains to convince the most incredulous that the *Cherry Pectoral* is all that it purports to be, viz. an unequalled pectoral agent for all diseases of the Throat and Lungs. The experience of years, has proven it to be such and we submit it to the people, believing that its fitness will fully maintain its reputation.
